AIRBORNE DATA COLLECTION

LEADING THE FIELD.

GIS has been a premier surveying firm across Louisiana and Gulf Coast for over 6 years. Through hard work and client satisfaction, we have maintained a steady growth in both resources and personnel. Our diverse group of employees brings tested experience and new ideas together to keep our company at the forefront of the surveying, geospatial, and 3D laser scanning industry. We believe the effective utilization of these resources is the key to success for both us and our clients. The investment in equipment and personnel keeps GIS Survey and Technology connected to our continued goal to provide a solid economical source of surveying products and services dedicated to our clients' needs.

ABOUT US

GIS Engineering is dedicated to delivering high-quality, responsive professional services that help clients achieve success. Since its founding in 2015, the company has grown to over 320 employees—a testament to its ability to provide trusted solutions with enthusiasm, diligence, and creativity. As a multi-discipline engineering, surveying, and construction management firm, GIS Engineering serves clients across the Energy, Industrial, Power, and Public Works sectors. It operates as a subsidiary of GIS Holdings, LLC, established in 1948. With more than 3,500 employees, over 20 strategically located facilities, and 20+ service lines, GIS offers full-service design, fabrication, and construction solutions—providing clients with a single point of contact from concept to completion.

SAFETY

LIFE is the proactive, operational, and behavior-based component of GIS's comprehensive safety management program. While our Corporate HSE group focuses on compliance, training, and incident response, the LIFE processes specifically cover Operational Safety, through: comprehensive work planning; increasing awareness of work area & task risks; intervention techniques for redirecting at-risk behaviors; embedded field presence; quarterly initiatives focused on observed areas of risk; and visible leadership engagement all while encompassing the Human Performance Improvement Principles.

PEOPLE

GIS employees are at the heart of our business. We are committed to developing and sustaining long-standing relationships with both our internal and external clients. Each employee is committed to excellence and continuous improvement. We understand the personal component of our business and are built upon core values that drive a partnership-minded approach to providing valued solutions to our clients while understanding our clients' operations, goals, and bottom line drivers. Our people believe greater value is created by aligning our goals with those of our clients and striving for innovation and excellence with every opportunity.
