

The Engineering Difference

SURVEY & TECHNOLOGY

RESPONSIBLE. RELIABLE. RESULTS.

Chustz Surveying (CSI), a division of GIS Engineering, LLC, has been a premier surveying firm across Louisiana and the South for over 27 years. Through hard work and client satisfaction, we have maintained a steady growth in both resources and personnel. Our diverse group of employees brings tested experience and new ideas together to keep our company at the forefront of the surveying industry. We believe the effective utilization of these resources is the key to success for both us and our clients. This investment in equipment and personnel keeps Chustz Surveying connected to our continued goal to provide a solid economical source of surveying products and services dedicated to our clients' needs.

ABOUT US

GISEng has been dedicated to providing high-quality, responsive professional services that clients need to achieve success. GISEng has grown to 200+ employees in just six years of business; this market emergence demonstrates the company's ability to provide trusted services with enthusiasm, diligence, and creativity. GISEng is a multi-discipline engineering, surveying and construction management firm providing services to customer in the Energy, Industrial, Power and Public Works sectors. GISEng is a subsidiary of GIS Holdings, LLC which was established in 1948. With 20+ strategically located facilities, 3,000+ employees, and 20+ service lines GIS is capable of offering full-service design, fabrication and construction services to clients as a single point of contact.

SAFETY

LIFE is the proactive, operational, and behavior-based component of GIS's comprehensive safety management program. While our Corporate HSE group focuses on compliance, training, and incident response, the LIFE processes specifically cover Operational Safety, through: comprehensive work planning; increasing awareness of work area & task risks; intervention techniques for redirecting at-risk behaviors; embedded field presence; quarterly initiatives focused on observed areas of risk; and visible leadership engagement all while encompassing the Human Performance Improvement Principles.

PEOPLE

GIS employees are at the heart of our business. We are committed to developing and sustaining long-standing relationships with both our internal and external clients. Each employee is committed to excellence and continuous improvement. We understand the personal component of our business and are built upon core values that drive a partnership-minded approach to providing valued solutions to our clients while understanding our clients' operations, goals, and bottom line drivers. Our people believe greater value is created by aligning our goals with those of our clients and striving for innovation and excellence with every opportunity.
