

The Engineering Difference

# SURVEY & TECHNOLOGY

## RESPONSIBLE. RELIABLE. RESULTS.

GIS has been a premier surveying firm across Louisiana and Gulf Coast for over 6 years. Through hard work and client satisfaction, we have maintained a steady growth in both resources and personnel. Our diverse group of employees brings tested experience and new ideas together to keep our company at the forefront of the surveying, geospatial, and 3d laser scanning industry. We believe the effective utilization of these resources is the key to success for both us and our clients. The investment in equipment and personnel keeps GIS Survey and Technology connected to our continued goal to provide a solid economical source of surveying products and services dedicated to our clients' needs.

## ABOUT US

GIS has been dedicated to providing high-quality, responsive professional services that clients need to achieve success. We have grown our Technical Services Division to nearly 250 employees in nine (9) years of business which consists of Survey and Technology, State and Local Infrastructure Engineering, Industrial Engineering, Federal Programs and Policies, and Non-destructive Testing; this market emergence demonstrates the company's ability to provide trusted services with enthusiasm, diligence, and creativity. GIS is a multi-discipline firm providing services to customers in the Energy, Industrial, Power and Public Works sectors. GIS is a subsidiary of GIS Holdings, LLC which was established in 1948. With 20+ strategically located facilities, 3,000+ employees, and 20+ service lines, GIS is capable of offering full-service design, fabrication, and construction services to clients as a single point of contact.

## SAFETY

**LIFE** is the proactive, operational, and behavior-based component of GIS's comprehensive safety management program. While our Corporate HSE group focuses on compliance, training, and incident response, the LIFE processes specifically cover Operational Safety, through: comprehensive work planning; increasing awareness of work area & task risks; intervention techniques for redirecting at-risk behaviors; embedded field presence; quarterly initiatives focused on observed areas of risk; and visible leadership engagement all while encompassing the Human Performance Improvement Principles.

## PEOPLE

GIS employees are at the heart of our business. We are committed to developing and sustaining long-standing relationships with both our internal and external clients. Each employee is committed to excellence and continuous improvement. We understand the personal component of our business and are built upon core values that drive a partnership-minded approach to providing valued solutions to our clients while understanding our clients' operations, goals, and bottom line drivers. Our people believe greater value is created by aligning our goals with those of our clients and striving for innovation and excellence with every opportunity.
